

The recent school shooting tragedies have left many School Districts wondering what precautions can be taken to provide safety for their students, faculty, and staff. From limiting the number of access points of the building to creating a secure entrance, there are many options to consider when looking to create and maintain a safe educational environment.

Safetymatters

Quad3 Group can assist your School District in taking the essential steps to make your school facility safer for students, faculty, and staff by developing a Secure Entrance.

EDUCATIONAL SAFETY PRECAUTIONS SECURE ENTRANCES

Options for Creating a Secure Entrance:

- Bullet Resistant Glazing
- Card Access System
- Integrated Alarm Systems
- Intrusion Detection
- Metal Detectors
- Secure Vestibule
- Video Surveillance
